ABOUT ME & VISION

Ambitious ACCA Finalist (Professional Level Student) and Bachelor of Business Studies (BBS) student with a strong foundation in accounting, finance, audit, and taxation[cite: 1]. Completed nine ACCA papers (including Audit & Assurance) alongside the Ethics and Professional Skills Module (EPSM)[cite: 1].

As a progressive, left-leaning youth committed to social justice, human dignity, and modern scientific socialism, I advocate for transformative reforms in Nepal's economic, social, cultural, political, and legal systems. I firmly believe that access to basic human needs—education, healthcare, housing, food, and clothing—is an equal, non-negotiable right for every individual regardless of caste, class, gender, region, or religion. Driven by the vision of ending birth-based inequality, dismantling discriminatory structures, and promoting good governance and prosperity, I seek to apply my financial expertise, leadership, and ethical commitment toward building an inclusive, democratic, and equitable society locally and globally.
